Information type

Determination

Format

PDF

Description

This is a determination under Part 3 Subpart 1 of the Building Act 2004 made on behalf of the Chief Executive of the Department of Building and Housing.

The applicants are the two joint-owners, and the other party is the Auckland City Council

The application arises from the refusal by the territorial authority to issue a code compliance certificate for 6-year old additions to an existing house unless changes are made to its monolithic cladding systems. The question to be determined is whether on reasonable grounds the monolithic wall cladding as installed to the majority of the timber-framed external walls of the house, complies with the building code.
