### Description

This is a determination under Part 3 Subpart 1 of the Building Act 2004 made on behalf of the Chief Executive of the Department of Building and Housing.

The applicants are the joint owners, and the other party is the Waitakere City Council.

The question that has been asked to determine is whether the horizontal wall cladding as installed to the new steel-framed external wall to the eastern elevation of the house, complies with the Building Code. The determination also comments on major deficiencies relating to the vertical cladding installed on the other three elevations of the house (which were outside the original scope of the determination).

For assistance with locating previous versions, please contact the information provider.
