2006/014: Refusal of a code compliance certificate for a building with a monolithic cladding system

[View on Information Provider website](#) [Download this resource \(PDF, 0KB\)](#) {{ linkText }}

Abbreviation

2006/014

Valid from

06/03/2006

Information provider

Ministry of Business, Innovation and Employment

Information type

Determination

Format

PDF

Description

The application arose because no code compliance certificate was issued by the territorial authority for a 5-year-old house.

The questions to be determined were:

1. Whether the monolithic wall cladding as installed to the external walls of the building complied with the Building Code;
2. Whether certain building elements, which have 5 and 15-year durability requirements, complied with clause B2 of the Building Code considering the time that had elapsed since the elements of the 5-year-old house were constructed.
