Information type

Determination

Format

PDF

---

### Description

The dispute for determination is whether the territorial authority's decision to decline to issue a code compliance certificate for a 6-year-old alteration to an existing house because it was not satisfied that the monolithic cladding complied with clauses B2 Durability and E2 External Moisture of the Building Code<sup>2</sup> is correct. The question to be determined is whether the monolithic wall cladding as installed to the timber-framed external walls of the house complies with the Building Code (see sections 177 and 188 of the Act).
