Information type

Determination

Format

PDF

---

### Description

The dispute for determination is whether the territorial authority's decision to decline to approve an amendment to the building consent in regard to the parapets for this partly constructed house because it was not satisfied that the parapet design complied with clauses B2 Durability and E2 External Moisture of the Building Code is correct. 1.3 The question to be determined is whether the monolithic-clad parapets of this building proposed to be installed in lieu of the metal cappings specified in the consent drawings, will comply with the Building Code (see sections 177 and 188 of the Act).
