2006/100: Refusal of a code compliance certificate for additions to a house with a monolithic cladding system

[View on Information Provider website](#) [Download this resource \(PDF, 151KB\)](#)

{{ linkText }}

Abbreviation

2006/100

Valid from

24/10/2006

Information provider

Ministry of Business, Innovation and Employment

Information type

Determination

Format

PDF

Description

The application arose because the territorial authority declined to issue a code compliance certificate for alterations and additions to a house unless changes were made to its monolithic cladding system.

The matter for determination was whether the territorial authority's decision to decline to issue a code compliance certificate for additions and alterations to a house made over 10 years was correct.

The territorial authority declined the application because it was not satisfied that the monolithic cladding as installed on the new building work complied with clauses B2 Durability and E2 External Moisture of the Building Code.
