### Description

This determination arises from the decision of the territorial authority to refuse to issue a code compliance certificate for an 11-year-old house because it is not satisfied that it complies with clauses B2 'Durability' and E2 'External Moisture' of the Building Code

The matters for determination are whether: the cladding as installed on the house complies with clause E2 External Moisture of the Building Code, whether the building complies with the remaining clauses of the Building Code, and if the elements that make up the building work comply with clause B2 'Durability' of the Building Code, taking into account the age of the building work.
