Information provider
Ministry of Business, Innovation and Employment

Information type
Determination

Format
PDF

Description

The determination arises from the decision of the authority to refuse to issue an amendment to a consent for a house under construction because it was not satisfied that the alternative roof tile being proposed would result in the house meeting the requirements of Clause E2 External Moisture, and Clause B2 Durability of the Building Code (Schedule 1, Building Regulations 1992). The matters for determination are: whether the authority was correct in refusing to amend the building consent; and whether the roof as installed complies with the Building Code.
