This determination arises from a decision by the authority to refuse to grant an amendment to the building consent for the substitution of roof claddings to a new house, because it is not satisfied that the substituted roof cladding complies with certain clauses of the Building Code.

The matter for determination in terms of section 177(a) and 177(b)(v) is whether the authority was correct in its decision to refuse to amend the building consent in respect of the asphalt shingle roofing.
