Information type

Determination

Format

PDF

Description

The determination arises from the authority's decision to refuse to issue a building consent for the proposed extension because the authority was of the view that: access and facilities for people with disabilities were required; and it was unable to grant a waiver or modification of the Building Code (Schedule 1 of the Building Regulations 1992) relating to access and facilities for people with disabilities.

The matter for determination is whether the authority was correct to refuse to issue a building consent for the proposed alteration with respect to access and facilities for people with disabilities.
