### Description

The determination arises from the decision of the authority to refuse to issue a code compliance certificate in respect of an amended building consent for work to a two-storey building undergoing a change of use, following the applicant's decision not to carry out work on the upper floor.

The matter for determination is whether the authority correctly exercised its powers under section 115 when it considered the application for the amendment to the building consent, and therefore whether the authority's decision to issue the amended building consent was correct.
