### Description

The dispute between the parties relates to the authority's decision to refuse to issue a code compliance certificate for the swimming pool and pool room already constructed on the applicant's property.

The reason for this decision is that the authority is concerned that the swimming pool barriers do not comply with the requirements of Clause F4 of the Building Code. The applicant has asked for a determination as to whether the pool area, including the pool room, complies with the Building Code.

Therefore, the matter for determination is whether the authority was correct in its decision to refuse to issue a code compliance certificate. In deciding this it must be considered whether the pool barriers comply with Clause F4 of the Building Code, with respect to the area enclosed by the barriers as the

pool area.
