## 2011/102: Compliance of a proposed pebble strip to a house

[View on Information Provider website](#) [Download this resource \(PDF, 59KB\)](#)

Abbreviation

2011/102

Valid from

12/12/2011

---

Information provider

Ministry of Business, Innovation and Employment

Information type

Determination

Format

PDF

---

### Description

This second determination arose because the authority was not satisfied that the existing and proposed pebble beds comply with certain clauses of the Building Code.

The matter to be determined was therefore whether the existing pebble beds and the proposed alterations to the existing channel drain would comply with the relevant clauses of the Building Code; namely Clause D1 Access Routes, Clause E2 External Moisture and Clause B2 Durability.

The authority's submission for this determination included concerns about Building Code Clauses B1 Structure and G13 Foul Water. This determination was therefore limited to addressing the relevant matters and clauses not included within the first determination.
