### Description

This determination considers the authority's refusal to accept a building consent application. The determination considers whether sufficient information was provided to the authority as required by section 45 of the Building Act.

This determination arises from the authority's refusal to accept a building consent application, as the proposed building was outside the scope of the Acceptable Solution E2/AS1. The refusal arose because the authority was not satisfied it had enough information to accept the building consent application and was of the view the proposed building work would not comply with Clause E2 External moisture of the Building Code (First Schedule, Building Regulations 1992)

For assistance with locating previous versions, please contact the information provider.
