### Description

This determination considers a second refusal to issue a code compliance certificate for a now 17-year-old house with monolithic cladding that was the subject of a previous [determination 2017/008](#).

This determination discusses the validity of the refusal with regard to the time in which a building consent authority must make a decision, and the relationship between the requirement to give reasons for refusing to issue a code compliance certificate and the issue of a notice to fix.

The determination considers the information the authority had before it at the time it made its decision and whether the items identified by the authority are compliant with the Building Code.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

**To be read in conjunction with [Determination 2017/008](#).**
