AS/NZS ISO 24598:2013 Welding consumables - Solid wire electrodes, tubular cored electrodes and electrode-flux combinations for submerged arc welding of creep-resisting steels - Classification

[View on Information Provider website](#)

Abbreviation

AS/NZS ISO 24598:2013

Valid from

20/02/2013

Information provider

United States Environmental Protection Agency

Author

Standards Australia, Standards New Zealand, International Standardization Organisation

Information type

New Zealand Standard

Format

PDF

Description

This Standard specifies requirements for manufacturers and users on the classification of solid wire electrodes, tubular cored electrodes and the electrode/flux combinations (all-weld metal deposits) for submerged arc welding of creep-resisting and low-alloy elevated temperature steels. Identical to and reproduced from ISO 24598:2012.
