Abbreviation

AS/NZS 3582.1:2016

Valid from

12/02/2016

Information provider

Standards New Zealand

Author

Standards Australia, Standards New Zealand

Information type

New Zealand Standard

Format

PDF

Description

This Standard sets out the requirements for fly ash for use as a cementitious material in concrete, mortar and related applications. This edition introduces of new grades of fly ash, recognition of proven and unproven sources, amendments to sampling and testing requirements.

The major changes to this edition include the introduction of new classes of materials, definitions for proven and unproven sources and corresponding testing frequencies, and incorporating product conformity requirements in the normative section which was previously in the 'information' section.

For assistance with locating previous versions, please contact the information provider.
