AS/NZS 4257.9:1995 Plastic roof and wall cladding materials - Methods of test - Determination of transverse bending stiffness

[View on Information Provider website](#) [{{ linkText }}](#)

Abbreviation

AS/NZS 4257.9:1995

Valid from

04/12/1995

Information provider

Standards New Zealand

Author

Standards Australia, Standards New Zealand

Information type

New Zealand Standard

Format

PDF

Description

This Standard sets out a method for measuring the transverse bending stiffness of plastic roof and wall cladding materials.

The transverse bending stiffness (EI) of plastic planks is determined by obtaining the load-deflection curve for the planks.
