[This resource is cited by 1 document \(show Citations\)](#)

Description

This Standard sets out the method for determining the thickness, length, width, spring, bow, twist and section squareness of test pieces of structural laminated veneer lumber (LVL).

Scope

This Standard does not provide design values. In the case of Australia and New Zealand, the values obtained in this Standard should be processed in accordance with AS/NZS 4063 for characteristic properties and AS 1720.1 or NZS 3603 for design values.
