AS/NZS 4361.2:2017 Guide to hazardous paint management - Part 2: Lead paint in residential, public and commercial buildings

[View on Information Provider website](#)

Abbreviation

AS/NZS 4361.2:2017

Valid from

22/12/2017

Information provider

Standards New Zealand

Author

Standards Australia, Standards New Zealand

Information type

New Zealand Standard

Format

PDF

Description

This Standard provides guidance for the management of lead paint on non-industrial structures such as residential, public and commercial buildings.

It provides information on methods for determining whether lead is present on a building, the amount of lead present and the selection of an appropriate management strategy.

Although this Standard does not fully address requirements for the evaluation of worker health and safety, which are covered by current regulatory requirements, it does provide guidelines to produce a safer working environment.

For assistance with locating previous versions, please contact the information provider.
