Description

The 7th edition of the Documentation of the TLVs® and BEIs® provides the basic rationale for the development of TLVs® for chemical substances and physical agents and of BEIs® for selected chemicals.

Scope

Now available in a more user-friendly five volume format, the Documentation include these specific new features:

- An up-front **Summary** of each chemical substance TLV® Documentation, similar to the Abstract of scientific papers published in journals. This **Summary** brings together the principal points upon which the TLV® is based, and cites the potential health risks that the TLV® is designed to minimize.
- **History Tables** showing the history of values for each agent (new for the Biological Exposure Indices (BEIs®) and physical agents TLVs®; reformatted for the chemical substance TLVs®).
- More complete and up-to-date **Introductions** to the chemical substance TLVs®, BEIs®, and physical agents TLVs®.

Includes 2002-2018 Supplements.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

NZS 4303:1990 cites 'Documentation of the Threshold Limit Values and Biological Exposure Indices, 1986', which is not currently available online.
