API BULL 5A2 Bulletin on Thread Compounds for Casing, Tubing, and Line Pipe

[View on Information Provider website](#)

Abbreviation

API BULL 5A2

Valid from

01/01/1988

Information provider

IHS Markit

Author

American Petroleum Institute

Information type

Information bulletin

Format

PDF, Hard copy

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

The purpose of this bulletin is to provide information on two types of thread compounds recommended for casing and tubing connections in high-pressure well service. This bulletin is for the convenience of purchasers and manufacturers in ordering and producing thread compounds and is not intended to inhibit purchasers and producers from purchasing and producing thread compounds meeting specifications other than those contained herein.

For assistance with locating previous versions, please contact the information provider.
