Pro-Joist Saddle Flashing

[View on Information Provider website](#) [Download this resource \(PDF, 175KB\)](#)

Abbreviation
Appraisal number 531
Valid from
31/07/2015

Information provider
BRANZ Limited
Information type
BRANZ Appraisal
Format
PDF

Description

The Pro-Joist Saddle Flashing is a moulded, one piece flashing for weatherproofing the junction where a timber joist cantilevers from inside the building structure to the outside. This situation will arise with cantilevered timber decks.

Scope

The Pro-Joist Saddle Flashing has been appraised for use as a saddle flashing for timber joists of cantilevered decks of buildings within the following scope:

- the scope limitations of NZBC Acceptable Solution E2/AS1, Paragraph 1.1; and,
- situated in NZS 3604 Wind Zones up to and including Extra High.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

This Appraisal replaces BRANZ Appraisal No. 531 (2006).
