Biform Solid Composite Decking

[View on Information Provider website](#) [Download this resource \(PDF, 359KB\)](#)

Abbreviation
Appraisal number 680
Amendment
31 May 2019
Valid from
21/12/2015

Information provider
BRANZ Limited
Information type
BRANZ Appraisal
Format
PDF

Description

Biform Solid Composite Decking is a wood/plastic composite (WPC) decking for timber framed decks. The decking is available in two sizes - FORM 130 and FORM 140.

Scope

Biform Solid Composite Decking has been appraised for use as an alternative exterior decking material for decks designed and constructed in accordance with NZS 3604.

The FORM 140 size of Biform Solid Composite Decking has also been appraised as exterior decking when used on decks subject to a specific engineering design.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

This Appraisal replaces BRANZ Appraisal No. 680 (2010).

This Appraisal has been amended to specify the minimum clearance from waterproof membranes on decks and balconies.
