**Description**

Joist Grippa and Ultibrac stainless steel brackets are to connect boundary joists to joists or nogs (blocking) where timber deck cantilever balustrade posts are used for barriers.

**Scope**

Joist Grippa and Ultibrac brackets have been appraised as alternative connections of boundary joists to floor joists or nogs as described in NZS 3604 Figures 7.10 (b) and 7.10 (c) for timber-framed structures designed in accordance with NZS 3604.

Joist Grippa and Ultibrac brackets can be used as part of the specific design of posts and balustrades.
