## AS 1366.4-1989 (R2018) Rigid cellular plastics sheets for thermal insulation - Rigid cellular polystyrene - extruded (RC/PS-E)

[View on Information Provider website](#)

### Abbreviation

AS 1366.4-1989

### Version

Reconfirmed in 2018

### Valid from

01/02/2005

---

### Information provider

SAI Global

### Author

Standards Australia

### Information type

Australian Standard

### Format

PDF, Hard copy

### Description

This Standard specifies requirements for extruded rigid cellular polystyrene (RC/PS-E) in the form of sheets or boards, blocks and cut shapes for thermal insulation. These requirements are intended for use in quality control and material specification, and are not necessarily applicable for end use design requirements.

### NOTE:

1. Advisory information on the determination of compliance of a lot is given in Appendix A.
2. Guidance to purchasers on recommended applications of extruded rigid cellular polystyrene (RC/PS-E) is given in Appendix B.

### Description

This Standard specifies requirements for extruded rigid cellular polystyrene (RC/PS-E) in the form of sheets or boards, blocks and cut shapes for thermal insulation. These requirements are intended for use in quality control and material specification, and are not necessarily applicable for end use design requirements.

### NOTE:

1. Advisory information on the determination of compliance of a lot is given in Appendix A.
2. Guidance to purchasers on recommended applications of extruded rigid cellular polystyrene (RC/PS-E) is given in Appendix B.
