[This resource is cited by 6 documents \(show Citations\)](#)

Description

This Standard gives information on methods of acceptance sampling inspection with particular reference to the sampling procedures and tables for inspection by attributes, given in AS 1199.

It explains the terms used, describes the various schemes and plans, gives practical advice on sampling inspection and discusses some of the theoretical aspects.

This Standard applies only to sampling for inspection by attributes, that is, where the process being sampled yields items, results, or data which are classified as 'pass/fail; go/no go; conforming/nonconforming'; etc.

Scope
