Description

This Standard specifies requirements for round seamless, copper tubes, supplied in coils and straight lengths for use in plumbing, gasfitting and drainage applications.

The ranges of nominal sizes are DN 6 to DN 200 inclusive for Types A and B, DN 10 to DN 25 inclusive for Type C and DN 32 to DN 150 inclusive for Type D.

Details of dimensions and tolerances, chemical composition, temper and form of material, testing, and marking are specified. The appendices propose purchasing guidelines, safe working pressure, testing pressure, and hydrostatic test.

For assistance with locating previous versions, please contact the information provider.
