AS 1443-2004 Carbon and carbon-manganese steel - Cold-finished bars
View on Information Provider website {{ linkText }}
Abbreviation
AS 1443-2004
Valid from
18/02/2004
Information provider
SAI Global
Author
Standards Australia
Information type
Australian Standard
Format PDF, Hard copy
Cited By This resource is cited by 1 document (show Citations)
Description
This Standard specifies requirements for cold-finished carbon steel and carbon-manganese steel bars manufactured from hot-rolled bars and semifinished products (see AS 1442), for general engineering purposes.
Scope
The Standard applies to steel supplied to specified chemical composition only or to specified chemical composition and mechanical properties. It permits the addition of elements, such as boron, and micro-alloying elements for the achievement of special properties.
