AS 1482-1985 (R2013) Electrical equipment for explosive atmospheres - Protection by ventilation - Type of protection v

[View on Information Provider website](#)

Abbreviation

AS 1482-1985 (R2013)

Valid from

04/10/1985

Information provider

SAI Global

Author

Standards Australia

Information type

Australian Standard

Format

PDF, Hard copy

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This standard specifies requirements for the protection by ventilation of electrical equipment in explosive atmospheres.

- Section 1 deals with gas or vapour dilution and point extraction ventilation of buildings and rooms; and
- Section 2 design, construction and testing of ventilation systems required to reduce the temperature of electrical power equipment by heat dissipation.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

Standard reconfirmed 8 April 2013
