AS 1646-1987 Rubber joint rings for water supply, sewerage and drainage purposes

[View on Information Provider website](#)

Abbreviation
AS 1646-1987
Valid from
01/01/1987

Information provider
SAI Global
Author
Standards Australia
Information type
Australian Standard
Format
Hard copy

Cited By
[This resource is cited by 1 document \(show Citations\)](#)

Description

This Standard provides for six hardnesses of vulcanized rubber joint rings manufactured from natural rubber, synthetic rubber (chloroprene, butyl, styrene-butadiene and polyisoprene rubber) and mixtures of natural and synthetic rubber.

Tensile strength, elongation, compression set, water absorption, root growth inhibitor, and sampling, marking and packaging are specified.

Appendices cover purchasing guidelines, methods of test, quality control information, root growth inhibitor, handling, packing and transport of rubber ring samples for assessment after use.
