## AS 1720.4-2006 Timber structures Fire resistance for structural adequacy of timber members

[View on Information Provider website](#)

### Abbreviation

AS 1720.4-2006

### Valid from

25/07/2006

---

### Information provider

SAI Global

### Author

Standards Australia

### Information type

Australian Standard

### Format

PDF, Hard copy

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This Standard provides a computational method for determining the fire resistance for structural adequacy of solid, plywood, laminated veneer lumber (LVL), and glued-laminated structural timber members as an alternative to the test specified in AS 1530.4.

This Standard also provides methods for protecting metal connectors from the effects of fire.

For assistance with locating previous versions, please contact the information provider.
