# Description

This Standard specifies range of nominal sizes (DN 100 to DN 1000), crushing strength classes (3 and 4), dimensional and performance requirements for vitrified clay pipes and fittings and flexible joints (socket and sleeve types), for operation under gravity, intended for the conveyance of sewage and industrial waste.

# Scope

This Standard specifies requirements for vitrified clay pipes and fittings with flexible joints, for operation under gravity, intended for the conveyance of sewage and industrial waste.

## NOTES:

- 1. Appendix A sets out guidelines on the information to be provided by the purchaser at the time of enquiry or order.
- 2. Methods for determining compliance with this Standard are given in Appendix B.
