[This resource is cited by 1 document \(show Citations\)](#)

Description

This Standard sets out methods for obtaining laboratory test samples of textile materials from laboratory bulk samples taken from a bulk source, and gives general directions for the preparation of test specimens of convenient size for the quantitative analysis of fibre mixtures.

Scope

The standard does not specify the method of obtaining the laboratory bulk sample.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

AS/NZS 4859.1:2002 cites this standard with reference to the material properties of textiles used for thermal insulation.
