### Description

This standard specifies requirements for carbon, low alloy, and high alloy cast steels.

### Scope

### NOTES:

1. Advice and recommendations on information for optional test requirements to be supplied by the purchaser at the time of enquiry or order are contained in appendix A.
2. A summary of chemical composition and tensile properties of steels included in this standard is given in appendix B, which also provides guidance on the selection of grades for specific applications.
3. AS 2074 only specifies materials. AS 4738 specifies the other additional requirements of the casting (See Preface).
