Description

This Standard specifies the requirements for the design, construction, performance and testing of emergency escape luminaires and illuminated exit signs for use in lighting schemes to comply with AS 2293.1. It includes electronic image files of the exit sign pictorial elements, in three different formats PDF, EPS and AI.

Scope

This Standard applies both to emergency escape luminaires and exit signs that are centrally supplied, and to emergency escape luminaires and exit signs of the self-contained type.

Appendix A lists the essential data and preferred format of test reports for emergency escape luminaires and exit signs. A sample declaration of the compliance of emergency escape luminaires and exit signs with this Standard is given in Appendix B.

For assistance with locating previous versions, please contact the information provider.
