AS 2706-2003 (R2018) Numerical values - Rounding and interpretation of limiting values

<u>View on Information Provider website</u> {{ linkText }}

Abbreviation

AS 2706-2003

Valid from

31/12/2003

Information provider

SAI Global

Author

Standards Australia

Information type

Australian Standard

Format

PDF

Cited By

This resource is cited by 5 documents (show Citations)

Description

This Standard deals with certain aspects of the rounding and interpretation of numerical values. It includes the following:

- Rules for the rounding of numbers, assuming a prior decision on the appropriate number of figures to be retained.
- A discussion of the number of significant figures to be retained in presenting any particular value.
- Conventions concerning the interpretation of specification limits in relation to their mode of expression.

General principles and working rules relating to different aspects of this subject are set out and illustrated with examples.
