Description

This Standard specifies requirements for self-drilling screws suitable for use in steel and timber, and fixing plasterboard to steel. It provides information on corrosion resistance, marking, and purchasing information. The Standard is also specifies dimensions, head types, and performance requirements.

Scope

The primary purpose of this Standard is to provide test performance data.

Notes:

1. Guidance on the information that should be supplied at the time of enquiry or order is given in Appendix I. 2. Information on the determination of the compliance of a lot is given in Appendix J.
