Description

This Standard sets out requirements and recommendations for the safe storage and handling of corrosive substances, i.e. substances that meet the Class 8 classification criteria of the ADG Code.

Scope

The Standard also applies to other dangerous goods that are assigned a Class 8 subsidiary risk by the ADG Code, except where they are of Class 2 or where more stringent requirements apply under another relevant Australian Standard or applicable regulation.

Note: A discussion of the hazards presented by corrosive substances is provided in Appendix A.
