Description

This Standard specifies minimum requirements for hydraulic cements including general purpose cement, general purpose limestone, and blended cement. Requirements include both the composition as well as the properties and performance of the cement. A sampling and testing regime is specified for product conformity claims.

Scope

Notes:

1. Information on the interpretation of this Standard as a performance-based specification of cement is given in Appendix A.
2. Some additional information on applications and limitation of this Standard is included in the Preface.
