## AS 4040.3-1992 (R2016) Methods of testing sheet roof and wall cladding Resistance to wind pressures for cyclone regions

[View on Information Provider website](#)

### Abbreviation

AS 4040.3-1992 (R2016)

### Valid from

20/07/1992

---

### Information provider

SAI Global

### Author

Standards Australia

### Information type

Australian Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

### Description

This Standard specifies series of test methods which can be applied to sheet roof and wall cladding of various forms and base materials.

### Scope

This Standard sets out a test method for determining the resistance of sheet roof and wall cladding to wind pressures for cyclone regions.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

#### Reconfirmation Notice

Technical Committee BD-014 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change. Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 19 April 2016.
