### Description

This Standard specifies requirements for consumer piping, flueing, ventilation and appliance installations which are associated with the use or intended use of fuel gases such as town gas, natural gas, liquefied petroleum gas in the vapour phase, tempered liquefied petroleum gas, simulated natural gas or any similar substance.

This Standard was also made available on CD-ROM by Standards Australia.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

This Standard was also made available on CD-ROM by Standards Australia.
