## ASHRAE Handbook - HVAC Applications 1995

[View on Information Provider website](#)

### Abbreviation

ASHRAE Handbook - HVAC Applications 1995

### Valid from

01/06/1995

---

### Information provider

American Society of Heating, Refrigerating and Air-conditioning Engineers

### Author

American Society of Heating, Refrigerating and Air-Conditioning Engineers.

### Information type

Handbook

### Format

Hard copy

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This edition of the ASHRAE Handbook Series focuses on applications. HVAC requirements for an extensive range of applications are covered, including descriptions of the equipment needed to create a specific condition.

Two new chapters, kitchen ventilation and building commissioning, have been added to the 1995 edition. Numerous chapters have been updated and expanded to include more discussion, data, tables, figures and charts.

New information on HVAC exhaust for legionnaires disease, healthcare facilities, owning and operating costs, pharmaceutical clean rooms and more. Separate IP and SI editions.

For assistance with locating previous versions, please contact the information provider.
