### Description

This Standard specifies a procedure for the hydrostatic pressure testing of plastics pipes. The method is applicable to short-, medium- or long-term testing.

### Scope

This Standard sets out a Method for the hydrostatic pressure testing of plastics pipes using water.

The Method is applicable to short, medium or long-term testing with the test parameters being nominated in the relevant pipe Standard.

For long-term testing, a calculation method for subjecting test results to regression analysis is included.
