AS/NZS 1554.1:2011 Structural steel welding - Part 1: Welding of steel structures

[View on Information Provider website](#)

Abbreviation

AS/NZS 1554.1:2011

Valid from

17/06/2011

Replaces

[AS/NZS 1554.1:2004](#)

Information provider

Standards New Zealand

Author

Standards Australia, Standards New Zealand.

Information type

New Zealand Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

Provides rules for the welding of a wide range of steel constructions and while it is expected that its main use will be for statically loaded welds, it applies also to some welds subject to fatigue.

Although this Standard has been specifically prepared for steel structures, it may be usefully applied

to machine frames and other types of steel constructions.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

It is referenced in regard to fixed platforms, walkways, stairways and ladders
