Description

This Standard specifies the analysis methods for the determination of preservative solution concentration. Analytical procedures for the determination of specific preservative components are given for oil-borne and waterborne preservatives.

The calculations necessary for determining compliance with requirements specified in the AS/NZS 1604 series, or the relevant Standard, are outlined.

For assistance with locating previous versions, please contact the information provider.

## Table of Contents

### Section 1 Scope And General

**Section 2 Determination Of Copper, Hexavalent Chromium, And Arsenic In CCa Preservative Solutions**

**Section 3 Determination Of Boron In Preservative Solution**

**Section 4 Determination Of Fluoride In Preservative Solution By Ion-Selective Electrode**

**Section 5 Determination Of Pentachlorophenol (PCP) In Preservative Solutions**

**Section 6 Determination Of Organochlorine Insecticides In Preservative Treatment Solutions**

**Section 7 Determination Of Tin In Tri-(N-Butyl) Tin Oxide (TBTO) And Tri-(N-Butyl) Tin Naphthenate (TBTN) Solution By...**

**Section 8 Determination Of Didecyldimethylammonium Chloride In ACQ Solutions**

**Section 9 Determination Of Ammonia In ACQ Preservative Solutions**

**Section 10 Determination Of Copper In ACQ Preservative Solutions**

**Section 11 Determination Of Water Content In High-Temperature Creosote**

**Section 12 Determination Of Matter Insoluble In Toluene For High-Temperature Creosote**

**Section 13 Determination Of Relative Density Of High-Temperature Creosote By Hydrometer**

**Section 14 Determination Of Relative Density Of High-Temperature Creosote By Density Pycnometer**

**Section 15 Test Of Distillation For High-Temperature Creosote**

**Section 16 Determination Of Coke Residue In High-Temperature Creosote**

**Section 17 Determination Of Phenols (Tar Acids) In High-Temperature Creosote**

**Section 18 Determination Of Closed Flashpoint Of High-Temperature Creosote (Closed Cup)**

**Section 19 Determination Of Limpid Point Of High-Temperature Creosote**

**Section 20 Determination Of Bifenthrin In Water-Based Solutions By Gas Chromatography (GC)**

## Section 21 Determination Of Propiconazole, Tebuconazole And Permethrin In White Spirits-Based Preservative Solutions

## Section 22 Determination Of Imidacloprid In Preservative Solutions-HPLC Analysis
