Standards New Zealand

Author

Standards New Zealand, Standards Australia

Information type

New Zealand Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This Standard sets out requirements for the design, construction and performance of both direct-acting and indirect-acting powder-actuated (PA) hand-held tools. Appendices include methods for measuring the velocity of fasteners discharged from PA tools and for determining the ability of a PA tool to resist accidental firing when dropped.
