Description

This Standard sets out requirements for the supply of electricity at low-voltage to, and for **temporary wiring** within, concessions, tents, living quarters and other temporary structures used for entertainment or display and purposes associated therewith in shows, carnivals and in temporary low-voltage electrical installations such as those installed in temporary tent cities used for scouting jamborees, army camps and similar events.

It also makes recommendations for the in-service testing of portable and fixed electrical equipment used on such sites.

This Standard **does not apply to fixed wiring** within low-voltage electrical installations used in shows, carnivals and other similar events.
