Description

This Standard specifies design and performance requirements for appliances which incorporate a platform, ramp, sling, seat or harness, for use by people with disabilities in boarding and alighting from motor vehicles. Covers only those appliances that are attached to a vehicle.

Scope

This Standard specifies requirements for the design and performance of hoists and ramps which are intended to be installed in motor vehicles, for use by people with disabilities in boarding and alighting from motor vehicles.

Freestanding hoisting appliances or appliances for hoisting unoccupied wheelchairs into or onto a motor vehicle are not included.
