Description

This Standard specifies general safety requirements for approval and test purposes for transformers for toys.

This Standard is an adoption with national modifications and contains the full text of IEC 61558-2-7:1997.

Scope

This part 2 of AS/NZS 61558 applies to transformers for toys having a rated supply voltage not exceeding 250 V a.c., a rated frequency of 50/60 Hz, a rated output voltage not exceeding 24 V a.c. or 33 V ripple-free d.c. and a rated output not exceeding 200 VA and a rated output current not exceeding 10 A.

This standard does not in general take into account playing with the transformer by children.
